

## Parent Involvement

We value and encourage family involvement in our program. Parents and grandparents are welcome to take advantage of volunteer opportunities.

**Parent Pals:** By joining this group, you will have a wonderful opportunity to get to know other families and also support the preschool. Parent Pals meet for one hour each month during preschool hours. Together, they plan parties, help teachers with projects, and do any number of other activities. Younger siblings are welcome to attend.

**Art Studio:** We can always use an extra set of hands to assist our preschoolers during Art Studio. This is a very fun time that parents enjoy. You get to see first-hand the class (and your child) participating in activities. Volunteers sign up in advance and are required to attend 8:30-11:00 on the day they sign up for. Younger siblings may not attend this activity.

**General:** If you have a skill or interest that you would like to share with your child's class or the entire preschool, we want to talk to you! In the past, we have had parents share such interests as robotics, woodworking, healthy habits, policemen, dentists, Irish dance, and other multi-cultural experiences.
